

Tack Coats

WHY CHOOSE TRI-STATE ASPHALT

Our materials can be produced to meet all DOT specifications and meet all AASHTO testing requirements across the U.S. Tri-State's innovative laboratory technicians develop, test and customize any product we have to offer in order to cater to the rapidly changing needs of our industry.

With a simple phone call, we have someone there to assist you every step of the way. From there, we then carefully develop your product order(s) in our state-of-the-art laboratory and deliver it directly to your plant. Tri-State is a dedicated, multifaceted company ready to help you with all of your asphalt & emulsion needs.

OUR TACK COAT MATERIAL

- Fast break times
- Prevents slippage between pavement layers
- Provides vital structural performance of the pavement
- Excellent storage and stability
- Can be blended to any dilution level requested
- Promotes a strong bond
- Prevents longitudinal wheel path cracking, fatigue cracking, potholes, and other distresses
