

MICRO SURFACING

• CSS-1HLM

WHY CHOOSE TRI-STATE

Our materials can be produced to meet all DOT specifications and meet all AASHTO testing requirements across the U.S.

Tri-State's innovative laboratory technicians develop, test and customize any product we have to offer in order to cater to the rapidly changing needs of our industry. We offer our customers:

- ✓ The highest quality asphalt and emulsion products
- ✓ Custom mix designs
- ✓ Professional and talented laboratory technicians
- ✓ Custom formulations for asphalt & emulsion products
- ✓ Incomparable customer service
- ✓ Our own fleet to deliver right to your plant or job site
- ✓ Competitive pricing

BENEFITS OF MICRO SURFACING

Superior Performance

Our material is easy to use and cures rapidly, allowing for micro crews to come in and quickly return traffic in less than an hour.

Economical

Micro surfacing is a cost-effective alternative to hot mix asphalt overlays for pavement preservation. Longer-lasting over the lifespan of a pavement than a typical mill and fill.

Corrects Irregularities

Corrects minor surface profile irregularities, fills ruts, improves friction and skid resistance as well as treats minor ravelling and oxidation. No additives are needed.
